

# Because the facts speak for themselves

**FACT:** 9 out of 10 people won't pay the congestion charge when it starts in 2013.

**FACT:** 10 out of 10 will get a radically improved transport system across Greater Manchester.

**FACT:** This will only happen if you vote YES.

**FACT:** The congestion charge will only operate during the week in the 'rush hour' times of 7.00-9.30am and 4.00-6.30pm.

**FACT:** ... and is designed to only hit traffic 'hotspots', that's why there are 'rings' you have to cross to incur a charge.

**FACT:** If you're driving out of the city in the morning, or back into the heart of Greater Manchester in the late afternoon, you won't pay.

**FACT:** There's no Plan B. If we vote NO in December the money goes back to Government, all £3 billion of it.

**FACT:** The investment programme would see £60 million a month being spent on public transport across Greater Manchester - as much as we currently spend in an entire year!
